

2020 TMS BUYER'S GUIDE

Supply chain disruptions created by the global pandemic, shifting capacity, fluctuating fuel costs, and demanding e-commerce customer requirements are raising shipper and carrier interest in transportation management systems (TMS).

A variety of solutions are available to meet every company's unique needs. From cloud-based, on-demand, web-hosted applications to traditional licensing installations, over the road, on the rail, containerized, or parcel, TMS vendors and service providers are expanding their offerings to target specific end-user requirements.

Because the choices can be overwhelming, *Inbound Logistics* offers this annual TMS Buyer's Guide of some leading providers and solutions that can put you on the right road toward improved transportation management and performance, regardless of the business conditions.
